PROFESSIONAL SUMMARY

Computer Science Engineering student driven by a deep passion for software development and problem-solving. Skilled in Java, Data Structures & Algorithms, DBMS, and full-stack web development, with practical experience in creating real-world projects. A fast learner with strong analytical skills, teamwork abilities, and effective communication, I am eager to contribute to innovative projects and advance my career as a software developer.

EDUCATION

2016-2023

Motilal Fomra Sanatana Dharma Higher Secondary School

10th+12th

2023-Present

Dr.MGR Educational And Research Institute

B.Tech in Computer Science and Engineering

PROJECTS

UNIDROP-Campus Delievery System

- Built UniDrop, a smart campus-based P2P delivery platform where students can deliver orders along their existing routes and verify deliveries using OTP authentication.
- Developed features including product ordering, rentals, route-based delivery matching, user authentication, and order management using

Track-Expenses - A financial Tracker

Developed a full-stack Finacial Tracker application using Java Spring Boot, MySQL, React/TanStack, and Tailwind CSS with secure JWT authentication and email-based OTP verification. Implemented expense tracking, budget management, overspending alerts, dashboard analytics, and RESTful APIs following clean architecture and scalable backend practices.

SKILLS

Tech skills: java, python, c++, MySql, Spring Boot

Tools: VS code, Antigravity, Google Suite, Git, Github,Intellij Idea

Soft Skills: Time Management, Quick Learner, Team Leading, Communication

LANGUAGES

- ENGLISH
- HINDI(native)
- TAMIL
- GERMAN(BASIC LEVEL)

ACTIVITIES

Hackathons : Active participant of various hackathon.

Coding Club : Member of coding club and led a session for students to understand fundamentals of c.
